Safeguarding the rights of the people we support is a shared responsibility. Families, staff, human rights officers, legal representatives, and the individuals themselves must all work together to ensure that a person's rights are respected. This class will provide some background on human rights, including an historical perspective, and provide a foundation for the role of support people. Abuse and mistreatment issues and staff responsibility in reporting abuse to both DDS and the Disabled Persons Protection Commission (DPPC) will be addressed. This training includes DDS' expanded DPPC Mandatory Reporting training. Basic Human Rights is the prerequisite for Human Rights Officer training.

<u>Instructor</u>: Ramzi Wakim/Donald Wise/Tom Jackson DDS NE Regional Trainers

If you need accommodations, please request them at least two weeks before the training by emailing Ramzi.Wakim@mass.gov

<u>To register</u>: Click on the link to register or copy/paste link into your browser. (Person taking the training must register themselves with the email that will be used to take the training).

Devices to use when taking the training: When staff register for the training (offered on WebEx), they need to register with the email that they will use to take the training. The device they use to take the training must have audio and should have video (camera) capacity. If using a smart phone to take the training, they will need to first download the Cisco WebEx app (see below) and go through the app to take the training. If they are using a smart phone to take a WebEx training, they CANNOT join these WebEx trainings by directly calling/dialing in—that doesn't work. Participants should attend the training either on a computer/laptop or connect through the Cisco WebEx app on a smart phone. If a participant accesses through the phone WebEx app, they don't have all the features, but they are still able to see the power point, hear the presenter and use the chat feature.
